

EASA Certification Information

No.: 2019-18
Issued: 06 June 2019

Subject: Revocation of EASA Type Certificate (TC) No. EASA.R.012 affecting the EH101-300 helicopter type upon TC surrender by Leonardo S.p.A.

Type Certificate No.: EASA.R.012

Affected product(s): EH101-300

Issue date: 04 August 2016

Issued by: EASA

Type Certificate Holder: Leonardo S.p.A.

Background: The current holder of Type Certificate (TC) No. EASA.R.012 has requested to surrender its TC for the EH101-300 helicopter type, informing EASA that it is no more produced and also that there are no individual helicopters of such type in operation nowadays.

The EH101-300 helicopter type was originally approved under TC No. BR 2, issued on 24 November 1994 by CAA UK to E.H. INDUSTRIES LTD 500 Chiswick High Road London W4 5AG.

The EH101-300 helicopter type was later on grandfathered under EASA TC No. EASA.R.012 in accordance with Article 3, paragraph 1(a)(i), of Commission Regulation (EU) No.748/2012.

In accordance with the applicable EASA administrative procedures, the proposal to surrender the aforementioned TC related to the EH101-300 helicopter type was published on the EASA website for public consultation under EASA Certification Information 2019-12 dated 12 April 2019.

There were no comments made to the public consultation and therefore EASA decided to accept the surrender of the TC.

EASA has notified its acceptance to the Type Certificate Holder on 04 June 2019, along with consequent decision to revoke the EASA TC No. EASA.R.012 and associated Type Certificate Data Sheet (TCDS).
