Building Mutual Trust

Perspective from a regulator

Shane Carmody
Chief Executive Officer and Director of Aviation Safety

Attaining level of trust

- CASA's Regulatory Philosophy
- Ten principles of the Philosophy – trust has to be earned
- Principles are more than a set of aspirations – it is a practical benchmark to assess our performance
- Respecting true meaning of 'trust' between all participants is central for improved aviation safety outcomes

Mutual Trust & Mutual Recognition

- Mutual recognition and mutual trust are closely intertwined
- Building trust in the international arena
- Benefits to the regulators and industry
- Mutual trust without formal mutual recognition
