NPA distribution list

Subject: NPA-OPS 50 (JAR-OPS 3) – Operation of Helicopters Certified for Flight in Limited Icing Conditions

The proposals in the above NPA have been received by the Joint Aviation Authorities and endorsed by the Operations Sectorial Team. The associated documents are available under the JAA web site at jaa.nl/publications and under the EASA web site at easa.europa.eu/JAA to EASA transition.

NPA Content

The purpose of this NPA is to introduce clear and explicit Guidance Material for operations in Limited Icing Conditions.

General

The NPA is the standard JAA procedure for consultation within the aviation community. In addition to this JAA process the National Authorities may also perform their own consultation.

The objective of the NPA consultation is to inform interested parties of the current position and to receive comments on the draft. This means that the draft text is not necessarily the final text.

The JAA Committee expects that, within the above perspective, your organisation will participate efficiently in the NPA consultation. Your organisation is now invited to consider the NPA and submit comments electronically to JAA-NPA@easa.europa.eu by 24 August 2007. If no comments are received from your organisation by that date your agreement will be assumed.

Aysel Turfanda
NPA/Publications Manager
