

NOTICE OF PROPOSED AMENDMENT (NPA) No 19/2006

DRAFT DECISION OF THE EXECUTIVE DIRECTOR OF THE AGENCY

**AMENDING DECISION 2006/06/R of 31-07-2006 OF THE
EXECUTIVE DIRECTOR OF EASA**

on

**acceptable means of compliance and guidance material to Commission
Regulation (EC) No 2042/2003 of 20 November 2003 on the continuing
airworthiness of aircraft and aeronautical products, parts and appliances, and
on the approval of organisations and personnel involved in these tasks**

Appendix I

Aircraft Type Ratings for Part-66 Aircraft Maintenance Licence

TABLE OF CONTENTS.

		Type ratings	7

Explanatory Note

I. General

1. The purpose of this Notice of Proposed Amendment (NPA) is to envisage an amendment to Decision 2006/06/R of the Executive Director of EASA of 31 July 2006 amending Decision 2005/07/R of the Executive Director of 19 December 2005 on acceptable means of compliance (AMC) to Part-66 Appendix I Aircraft type ratings for Part-66 aircraft maintenance licence (hereinafter referred to as Part-66 AMC Appendix I) of Commission Regulation (EC) No 2042/2003 of 20 November 2003 on the continuing airworthiness of aircraft and aeronautical products, parts and appliances, and on the approval of organisations and personnel involved in these tasks (Commission Regulation (EC) No 2042/2003)¹. The scope of this rulemaking activity is outlined in ToR 66.003 and is described in more detail below.
2. European Aviation Safety Agency (hereafter the Agency) is directly involved in the rule-shaping process. It assists the Commission in its executive tasks by preparing draft regulations, and amendments thereof, for the implementation of Regulation (EC) No 1592/2002 of the European Parliament and of the Council of 15 July 2002 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency (the Basic Regulation)², which is adopted as “Opinions” (Article 14(1) of the Basic Regulation). It also adopts Certification Specifications, including Airworthiness Codes and Acceptable Means of Compliance and Guidance Material to be used in the certification process (Article 14(2) of the Basic Regulation).
3. When developing rules, the Agency is bound to follow a structured process as required in Article 43(1) of the Basic Regulation. Such process has been adopted by the Agency Management Board concerning the procedure to be applied by the Agency for the issuing of opinions, certification specifications and guidance material (hereafter the Rulemaking Procedure)³.
4. This rulemaking activity is included in the Agency’s rulemaking programme for 2006. It implements the rulemaking task 66.003 Part-66 AMC Appendix I.
5. The text of this NPA has been developed by the Agency. It has been submitted for consultation for all interested parties in accordance with Article 43 of the Basic Regulation and Articles 5(3) and 6 of the Rulemaking Procedure.

¹ OJ L 315, 28.11.2003, p. 1 Regulation as amended by Commission Regulation (EC) No 707/2006 of 8 May 2006 (OJ L 122, 9.5.2006, p. 17)

² Regulation (EC) No 1592/2002 of the European Parliament and of the Council of 15 July 2002 on common rules in the field of civil aviation and establishing a European Aviation Safety Agency. *OJ L 240, 7.9.2002, p.1.*

³ Management Board decision concerning the procedure to be applied by the Agency for the issuing of opinions, certification specifications and guidance material (“rulemaking procedure”), EASA MB/7/03, 27.6.2003

II. Consultation

6. To achieve optimal consultation, the Agency is publishing the draft decision on its internet site. Comments should be provided within 6 weeks in accordance with Article 6(5) of the EASA the Rulemaking Procedure. The reasons for the reduced comment period are outlined below.
7. Part-66 AMC Appendix I has been updated once by the Decision No 2005/07/R of the Executive Director of the Agency of 19 December 2005 and a second time by Decision 2006/06/R of 31-07-2006 on acceptable means of compliance and guidance material to Commission Regulation (EC) No 2042/2003 of 20 November 2003 on the continuing airworthiness of aircraft and aeronautical products, parts and appliances, and on the approval of organisations and personnel involved in these tasks. This is the third amendment to the Appendix. Task 66.003 is a permanent rulemaking task for the Agency and subject to an accelerated rulemaking procedure. This had been agreed with AGNA/SSCC at the meetings on the 21st and 29th June 2005. The list will be updated two times per year. The consultation period will be reduced to 6 weeks and no regulatory impact assessment will be carried out.

Comments on this proposal may be forwarded (*preferably by e-mail*), using the attached comment form, to:

By e-mail: NPA@easa.europa.eu

By correspondence: Process Support Unit
Rulemaking Directorate
EASA
Postfach 10 12 53
D-50452 Cologne
Germany

Comments should be received by the Agency before **06-02-2007**. If received after this deadline they might not be treated. Comments may not be considered if the form provided for this purpose is not used.

III. Comment response document

8. All comments received in time will be responded to and incorporated in a comment response document (CRD). This may contain a list of all persons and/or organisations that have provided comments. The CRD will be widely available on the Agency's website.

IV. Content of the draft decision

9. The objective of Part-66 AMC Appendix I on Aircraft type ratings for Part-66 Aircraft Maintenance Licence is to propose a list of aircraft type ratings (aircraft /engine combinations) to promote a common standard throughout Member States. This requires frequent amendment of the Appendix to keep it up to date.

10. A working group has started working within EASA on the objective of developing of more transparent type rating principles, in particular defining criteria for determining when a group or a type rating should be created. Until a proposal is made by the group and an NPA published on this issue, the form of the document Appendix I of Part-66 AMC will not be modified. Once an Opinion and or a Decision is submitted by Rulemaking, the Appendix I will be modified with criteria for defining categories, type ratings, and group ratings.
11. The Agency proposes the following amendment to the list Part-66 AMC Appendix I.

B DRAFT DECISION.

The text of the amendment is arranged to show deleted text and new text as shown below:

1. ~~Text to be deleted is shown with a line through it.~~
2. **New text to be inserted is highlighted with grey shading.**

1. Large aircraft (LA). Aeroplanes with a maximum take-off mass of more than 5700 kg, requiring type training and individual type rating.

Aerospatiale (Nord) 262 (Turbomeca Bastan)	Boeing 737-600/700/800 (CFM56)
Aerospatiale SN-601 (PWC JT15D)	Boeing 737-900 (CFM56)

2. Aeroplanes of 5700kg and below, requiring type training and individual type rating (A-tr).

Aero Ae-270 (PWC PT6)	Piper PA-46-310P (Continental)
	Piper PA-46-350P (Lycoming)
Bombardier DHC 6 (PWC PT6)	Piper PA-46-500TP Meridian (PWC PT6)
Cessna 425 (PWC PT6)	Raytheon (Beech) 90 Series (PWC PT6)
Cessna 441 (Honeywell TPE331)	Raytheon (Beech) 200 Series (PWC PT6)
Cessna 500 (PWC JT15D)	Raytheon (Beech) 99/100 (PWC PT6)
Cessna 501/551 (PW JT15D)	Raytheon (Beech) 100 Series (PWC PT6)
Cessna 525/525A (Williams FJ 44)	Raytheon (Beech) B100 (Honeywell TPE331)
Cessna/Reims F406 (PWC PT6)	Raytheon 390 (Williams FJ44)
Dornier Seastar CD2 (PWC PT6)	Twin Commander (Gulfstream/Rockwell/Aerocommander) 680/681/690/695 Series (Honeywell TPE331)
Embraer EMB-110 (PWC PT6)	
Embraer EMB-121 (PWC PT6)	
	Reims F406 (PWC PT6)
Extra EA-400-500 (RR Corp 250)	
	Socata TBM 700/850 (PWC PT6)
(Gates) Learjet 23 (GE CJ610)	
	Viking Air DHC-6 (PWC PT6)
Piaggio P166 (Lycoming)	
Piaggio P180 Avanti (PWC PT6)	Vulcanair AP.68TP Series (RR corp 250)
Pilatus PC-12 (PWC PT6)	
Piper PA-42 (Honeywell TPE331)	
Piper PA-42 (PWC PT6)	

3. Aeroplanes multiple turbine engines (AMTE) of 5700kg and below, eligible for type examinations and manufacturer group ratings.

ASTA (GAF) (Nomad)N24A (RR Corp 250)	M7 Aerospace (Fairchild Swearingen) SA26-AT (Honeywell TPE331)
B-N Group (Britten-Norman) BN-2T (Islander) (RR Corp 250)	Mitsubishi MU-2B (Honeywell TPE331)
Dornier DO 28D-6/128-6 (PWC PT6)	Piper PA-31T (PWC PT6)

PZL M 28 (PWC PT6)	
Shorts SC7 Skyvan 3 Variant 100 (Honeywell TPE331)	

4. Aeroplanes single turbine engine (ASTE) of 5700kg and below, eligible for type examinations and group ratings.

Aermacchi (Allison RR Corp 250-B)	PAC 750XL (PWC PT6 A-34)
Aero Vodochody Ae 270 (PWC PT6)	Pilatus PC-6 (PWC PT6)
	Pilatus PC-6 (Turbomeca Astazou)
Thrush (Ayres) S2R-T Series (PWC PT6)	Pilatus PC-6 (Honeywell TPE331)
	Pilatus PC-7 (PWC PT6)
Bombardier DHC 2 (PWC PT6)	Pilatus PC-9 (PWC PT6)
Bombardier DHC 3 (PWC PT6)	
Cessna (Soloy) 206/207 (RR Corp 250)	
Cessna 208 Series (PWC PT6)	SIAI-Marchetti SM1019 (RR Corp 250)
Grob G 520 (Honeywell TPE331)	Viking Air DHC-2 (PWC PT6)
	Viking Air DHC-3 (PWC PT6)
Moravan Zlin Z-37T/137T (Walter M601)	

5. Aeroplane multiple piston engines – metal structure (AMPE-MS), eligible for type examinations and group ratings.

Aero Ae-45/145 (LOM Walter)	
	Piper PA-23 Series (Lycoming)
Aero Commander AC 50 (Lycoming)	Piper PA-30 (Lycoming)
Aircraft Industries (Let) L 200 Series (LOM)	Piper PA-31 (Lycoming)
	Piper PA-31P (Lycoming)
Aerostar (Piper) PA-60 Series (Lycoming)	Piper PA-34 (Lycoming)
	Piper PA-34 (RR Continental)
B-N Group (Britten-Norman) BN2 Islander (Lycoming)	Piper PA-39 (Lycoming)
B-N Group (Britten-Norman) BN2A Trislander (Lycoming)	Piper PA-44 Series (Lycoming)
	Piper Aerostar PA-60 Series (Lycoming)
Cessna 336 (Continental)	Raytheon (Beech) 55 (Continental)
Cessna 310 Series (Continental)	Raytheon (Beech) 58 (Continental)
Cessna 335 (Continental)	Raytheon (Beech) 58P (Continental)
Cessna 337 (Continental)	Raytheon (Beech) 60 (Lycoming)
Cessna 340 (Continental)	Raytheon (Beech) 65-80 (Lycoming)
Cessna 401/402 (Continental)	Raytheon (Beech) 76 (Lycoming)
Cessna 404 (Continental)	Raytheon (Beech) 95 Series (Lycoming)
Cessna 414 (Continental)	Raytheon (Beech) 95 Series (Continental)
Cessna 421 (Continental)	
Cessna T303 (Continental)	Twin Rockwell Commander (Gulfstream/Rockwell/ Aerocommander) 685 (Continental)
Cessna 337 (Continental)	
	Twin Commander (Gulfstream/Rockwell/ Aerocommander) 500 Series/680 Series (Lycoming)
EADS Socata (Grumman) GA-7 (Lycoming)	
Grumman American GA 7 (Lycoming)	

Vulcanair P.68 Series (Lycoming)	
Vulcanair AP68TP Series (RR Corp 250)	

6. Aeroplane single piston engine – metal structure (ASPE-MS), eligible for type examinations and group ratings.

Aero AT-3 (Rotax)	Cessna 172 Series (Continental)
	Cessna 172 Series (Thielert)
Aermacchi F260 (Lycoming)	Cessna 175 Series (Lycoming)
	Cessna 175 Series (Continental)
Aircraft Industries (Let) Z-37 (LOMAvia)	Cessna 177 Series (Lycoming)
	Cessna 180 Series (Continental)
American AA 1/ 1A (Lycoming)	Cessna 182 Series (Lycoming)
American AA 5/ 5B (Lycoming)	Cessna 182 Series (Continental)
	Cessna 182 Series (SMA)
Antonov AN2 (Shvetsov Shveceov)	Cessna 185 Series (Continental)
	Cessna 188 (Continental)
