AMC1 AR.UAS.GEN.010 Competent authority

OVERSIGHT COOPERATION BETWEEN COMPETENT AUTHORITIES

When the same CMU is used to operate different UA registered in different Member States, the competent authorities of both UA should establish an arrangement for the oversight of the continuing airworthiness of the CMU. The arrangement should ensure the exchange of information relevant for the performance of the competent authorities' tasks, such as sharing the results of oversight activities performed (e.g. monitoring of the UAS's continuing airworthiness). The arrangement may include the performance of oversight tasks by one competent authority on behalf of another.

Competent authorities should inform UA owners of such arrangements.
