

European Union Aviation Safety Agency

FAQ n.21905

FAQs:

[Supplemental Type Certificates \(STC\)](#) , [Applications for product certification/validation of foreign certificates](#), [Certification of products and organisations](#)

Question:

How can I know if an STC is still valid? How can I know if an STC has been revoked, suspended or surrendered?

Answer:

EASA certificates are valid unless otherwise revoked, suspended or surrendered. In such cases, a related Certification Information will be published on the [EASA website](#).

If you require confirmation regarding the validity of a particular STC, we kindly suggest that you contact the STC holder.
