AIRBUS

The Design Perspective

AIRBUS

Design Drivers

- 1. Safety First and Beyond Standard
- 2. Efficient
 - In every possible way : fuel, weather, ground operations, maintenance, pilots ...
- 3. Comfort
 - Seats, space, quiet, lower cabin altitude
 - services

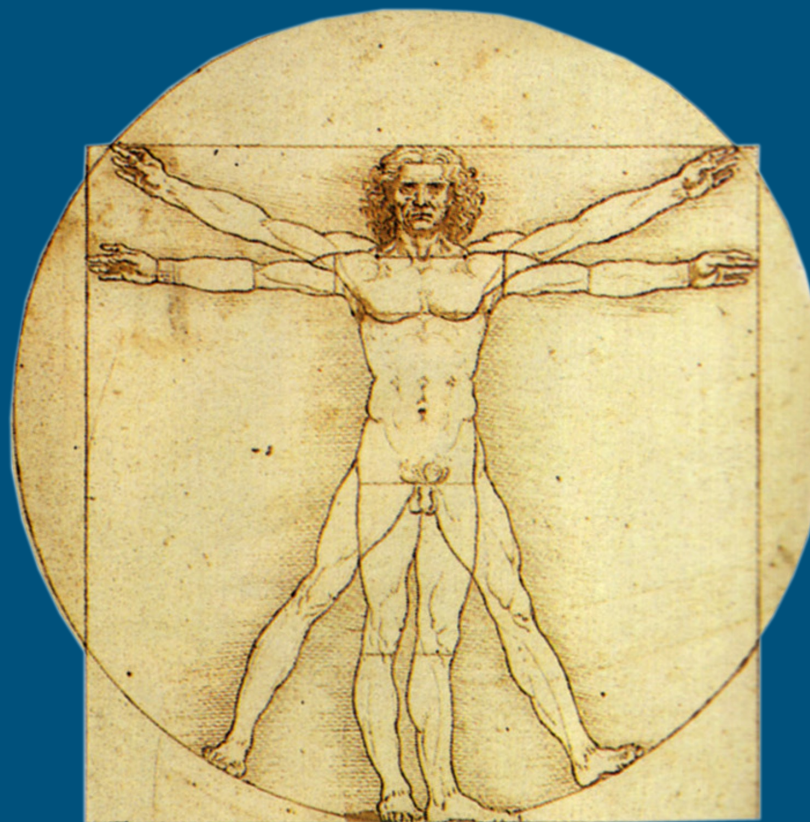

- **Innovation is in Airbus DNA**
- **Explore new technologies**
 - A lot of money invested in R&T
 - Investigate the edges
- **But innovation not at any cost**
 - No trade off with safety

- **Innovation is in Airbus DNA**
- **Explore new technologies**
 - A lot of money invested in R&T
 - Investigate the edges
- **But innovation not at any cost**
 - No trade off with safety

Human centric system

Well-trained Human to remain at the Heart of an Advanced System

Thank you

THANK YOU
