

FAQ n.111273**FAQs:**

[Certification Support for Validation \(CSV\)](#), [Applications for product certification/validation of foreign certificates](#), [Certification of products and organisations](#)

Question:

What are the new CSV Product Categories?

Answer:

With the new Fees and Charges Regulation, CSV applications are charged by a flat fee. This affects also the product categories, which have been changed as follows:

- Category “Small”: All Categories without technical involvement
- Category “Medium”: General Aviation, Small/Medium Rotorcraft, Parts and Appliances, Propulsion (except Turbine Engines)
- Category “Large”: Large Aeroplanes/Rotorcraft, Propulsion (Turbine Engines only)

The only exception are complex technical projects, which could not be covered by these 3 categories. These are still charged by the hour and a financial estimate could be provided on request.
