FAQ n.123570

FAQs:

[Production Organisation](#), [Brexit](#)

Question:

As a UK-based production organisation, how do I mark a part/appliance produced in accordance with EASA approved design data?

Answer:

As per 21.A.804, the “EPA” marking should be used for parts or appliances produced in accordance with approved design data not belonging to the type-certificate holder of the related product, except for ETSO articles.

Part/appliance manufactured by a UK-based production organisation in accordance with EASA design data (approved either through an EASA-issued certificate or through an approval by an EASA DOA, including approval prior to January 01, 2021 from a now UK DOA working under the regime of an EASA DOA at that time) not belonging to the type-certificate holder of the related product should be marked as “EPA” and released with a UK CAA Form 1.
