Documents

[Q&A STC Holders session](#)

Description

Date & Time

14/04/2021, 14:00-17:00

Description

The scope of this info session is to provide an overview of the new ageing aircraft structures requirements affecting STCHs together with the relevant means of compliance published by EASA. In this context, the Agency will also describe some typical cases, relevant best practices and possible difficulties that might be encountered by STCHs. The overall objective is to help ensure effective implementation of these new requirements by STCHs.
