### **Description**

Following the workshop on U-space held the 22/23 of June, EASA proposes a series of webinar intended to provide in-depth information on various U-space aspects.

The first webinar aims to get feedback from U-space stakeholders on the implementation and the regulatory framework. Key organizations representing the U-space industry have been invited to share their view on the current implementation, the main issues identified, alongside their thoughts on how to address their concerns.
