

**FAQ n.66700****FAQs:**

[Bilateral Agreement \(BASA\) - related to Continuing Airworthiness](#), [Continuing Airworthiness](#), [Regulations](#)

**Question:**

**What are the component release documents acceptable for installing a component (on aircraft or on a higher assembly) and releasing associated maintenance under EASA Part-145 regulation?**

**Answer:**

The [linked reference table](#) provides a table summarising the component release documents (FAA Form 8130-3, TCCA Form One, ANAC Form F-100-01...) acceptable to an EASA Part-145 organisation, depending on where such organisation is located and from which regulatory system the component is coming.
