

Annex 1 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 1-1

These 1612 stakeholders sent an identical response. They did not answer the question about their opinion on the envisaged concept. They are not satisfied with the use of the English language and the limited time of consultation for this A-NPA. They stated that due to these two reasons a major part of the European citizens couldn't take part the democratic procedure.

Annex 1 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 1-2

These 528 stakeholders sent an identical response. They did not answer the question about their opinion on the envisaged concept but provide suitable comments on different subjects. Some of the mentioned items / proposals are:

- relaxed maintenance and renewals of airworthiness*
- the necessity for a European PPL*
- medical examination without an Aero medical Examiner (AME) or Aero medical Centre (AMC)*
- statistical proof for this proposal*
- EPPL with an Touring Motor Glider (TMG) rating for the glider licence*
- no airspace restrictions for EPPL pilots*

Annex 1 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 1-3

These 134 stakeholders sent an identical response. They did not answer the question about their opinion on the envisaged concept but provide additional general comments on the following issues:

- support of option 3 or option 1 for initial airworthiness*
- the need for a revision of Part-M with a strong emphasis on the self-regulating responsibilities*
- no more new regulation for operations is required*
- the current PPL requirements (JAR-FCL) have to be reviewed and simplified*
- the creation of a new Sports Licence (similar to the US LSA) for aircraft up to 750 kg MTOM is supported*
- permission of medical assessment by general practitioners*

Annex 1 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 1-4

These 125 stakeholders sent an identical response. They did not answer the question about their opinion on the envisaged concept but they give additional general comments on the following issues:

- the definition of complex and non-complex powered aircraft seems to be oversimplified but acceptable*
- access to the airspace without restrictions*
- abolishment of JAR-FCL and JAR-OPS for GA*
- no creation of another licence but change of the existing scheme.*

Annex 1 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 1-5

These 135 stakeholders sent an identical response. They did not answer the question about their opinion on the envisaged concept but they describe the actual situation for the operation of microlights in Italy. Furthermore they highlighted the following issues:

- the simplified regulatory regime in the micro-light world*
- the JAR requirements in contrast to that*
- the increase of complexity and costs without improvement in safety*

Annex 4 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 4-1

These 134 stakeholders sent an identical response for all 7 questions. They support the involvement of assessment bodies in the oversight of continuing airworthiness and propose no or a minimal role for the NAA's. They expressed doubts to the practicability of developing standard modifications or repairs and proposed that industry standards are developed by other organisations (e.g. associations, standardisation bodies). They do not agree that continuing airworthiness requirements should be adapted to the size or type of aircraft and propose other criteria.

Annex 5 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 5-2

These 212 persons / organisations sent an identical response. They are in favour with the idea to create "light" implementing rules for air operations and propose that these rules should be aligned to ICAO standards with minimal requirements.

Annex 6 to Inventory of Answers

CRD-14-2006

List of commentators with identical response to Question 6-3

These 134 persons / organisations sent an identical response for all 7 questions. They are in favour with the introduction of an EPPL for aircraft up to 5,7 t MTOM with subdivisions for 750 kg and 2500 kg MTOM and mentioned the high theoretical level of the FCL licence. They recommend different kind of ratings like aerobatics, IFR or mountain flying.
