

European Union Aviation Safety Agency

## FAQ n.20117

### FAQs:

[Night Vision Imaging Systems \(NVIS\)](#), [Design Organisations](#)

### Question:

**Do I need to take any action, having already 'rotorcraft' category and 'Installation of Avionics' and 'Electrical systems' in my Terms of Approval, to be able to design NVIS related changes/repairs ?**

### Answer:

The changes/repairs of NVIS or NVIS-friendly rotorcraft are specifically covered in the Terms of Approval by the 'NVIS' technical field. Therefore, to be able to design such changes/repairs, a DOA has to extend its scope of approval through the usual Significant Change process.
