Easy Access Rules in XML format

Cologne, 16.03.2023

Agenda

TIME	SUBJECT
10:00 H – 10:05 H	**Introduction and the agenda presentation** *Anna Ngu*

10:05 H – 11:30 H	**Working with an EASA Easy Access Rules XML file**
	Steffen Frederiksen
	--- 	
	1. Opening in MS Word
	  a. Get an overview of the content
	  b. Edit
	  c. Save to other formats (e.g. HTML – with separate picture files, plain text, etc.)
	--- 	
	2. Opening in an XML editor
	  a. Show the package architecture
	  b. Identify the most relevant packages
	  c. Use simple "Find" to locate the **er:document** element
	  d. Use an XPath expression to find the **er:document** element
	  e. Use an XPath expression to locate a topic content, using the **sdt-id** attribute
	--- 	
	3. Using a simple XSLT program to remove unwanted packages and elements and keep the text
	  a. Walk through the XSLT example
	  b. Show result
	--- 	
	4. Using an XSLT program to extract the topics in separate XML files, using the values of ERulesId as file names
	  a. Walk through the XSLT example
	  b. Show result
	--- 	
	5. Using an XSLT program to transform from XML to JSON
	  a. Walk through the XSLT example
	  b. Show result

11:30 H – 12:00 H	**Questions and answers** *All*
