

# EASA

European Union Aviation Safety Agency

**This drone is an aircraft.  
Aviation law applies.**

## **As a drone pilot, you are responsible for flying your drone safely.**

### **Before flying, as a drone pilot, you must**

-  make sure the drone owner is registered at his or her national authority (unless already registered)
-  make sure the owner registration number is displayed on the drone and uploaded onto the remote identification system
-  read and follow the manufacturer's instructions
-  complete the mandatory online training and pass the test

**Check how to register, train and  
where you are allowed to fly:**

[www.easa.europa.eu/drones/NAA](http://www.easa.europa.eu/drones/NAA)

**Offences  
are punishable  
by law.**

## DO

Make sure you are adequately insured

Check for no-fly zones and any limitations in the area where you want to fly

Keep the drone in sight at all times

Maintain a safe distance between the drone and people, animals and other aircraft and of at least a distance of 150m from residential, commercial, industrial and recreational areas

Inform your national aviation authority immediately if your drone is involved in an accident that results in a serious or fatal injury to a person, or that affects a manned aircraft

Operate your drone within the limits defined in the manufacturer's instructions

## DO NOT

Do not fly higher than 120m from the ground

Do not fly near aircraft & in the proximity of airports, helipads or where an emergency response effort is ongoing

Do not infringe other people's privacy.

Do not record intentionally or publish photographs, videos or audio recordings of people without their permission

Do not use the drone to carry dangerous goods or to drop material

Do not modify your drone. Only software uploads recommended by the drone manufacturer are allowed
