

European Union Aviation Safety Agency

FAQ n.19598

FAQs:

[Data package required](#), [Certification Support for Validation \(CSV\)](#), [Certification Support for Validation \(CSV\)](#)

Question:

What is the data package required for validation of an EASA Type Certificate (TC) or Design Change (Supplemental Type Certificate (STC)/Major Change Approval) by the Federal Aviation Administration (FAA)?

Answer:

FAA requirements are detailed in the [EASA-FAA Technical Implementation Procedure](#) and captured for your ease of use in the check sheet below:

- [Checklist for data package required by the FAA for validation of EASA Certificate/Approval](#)
- [EASA Outbound Checklist for STCs/Major Change Approvals to be validated by FAA](#)
