

SMS implementation

Lex Dop

DOA Team Leader

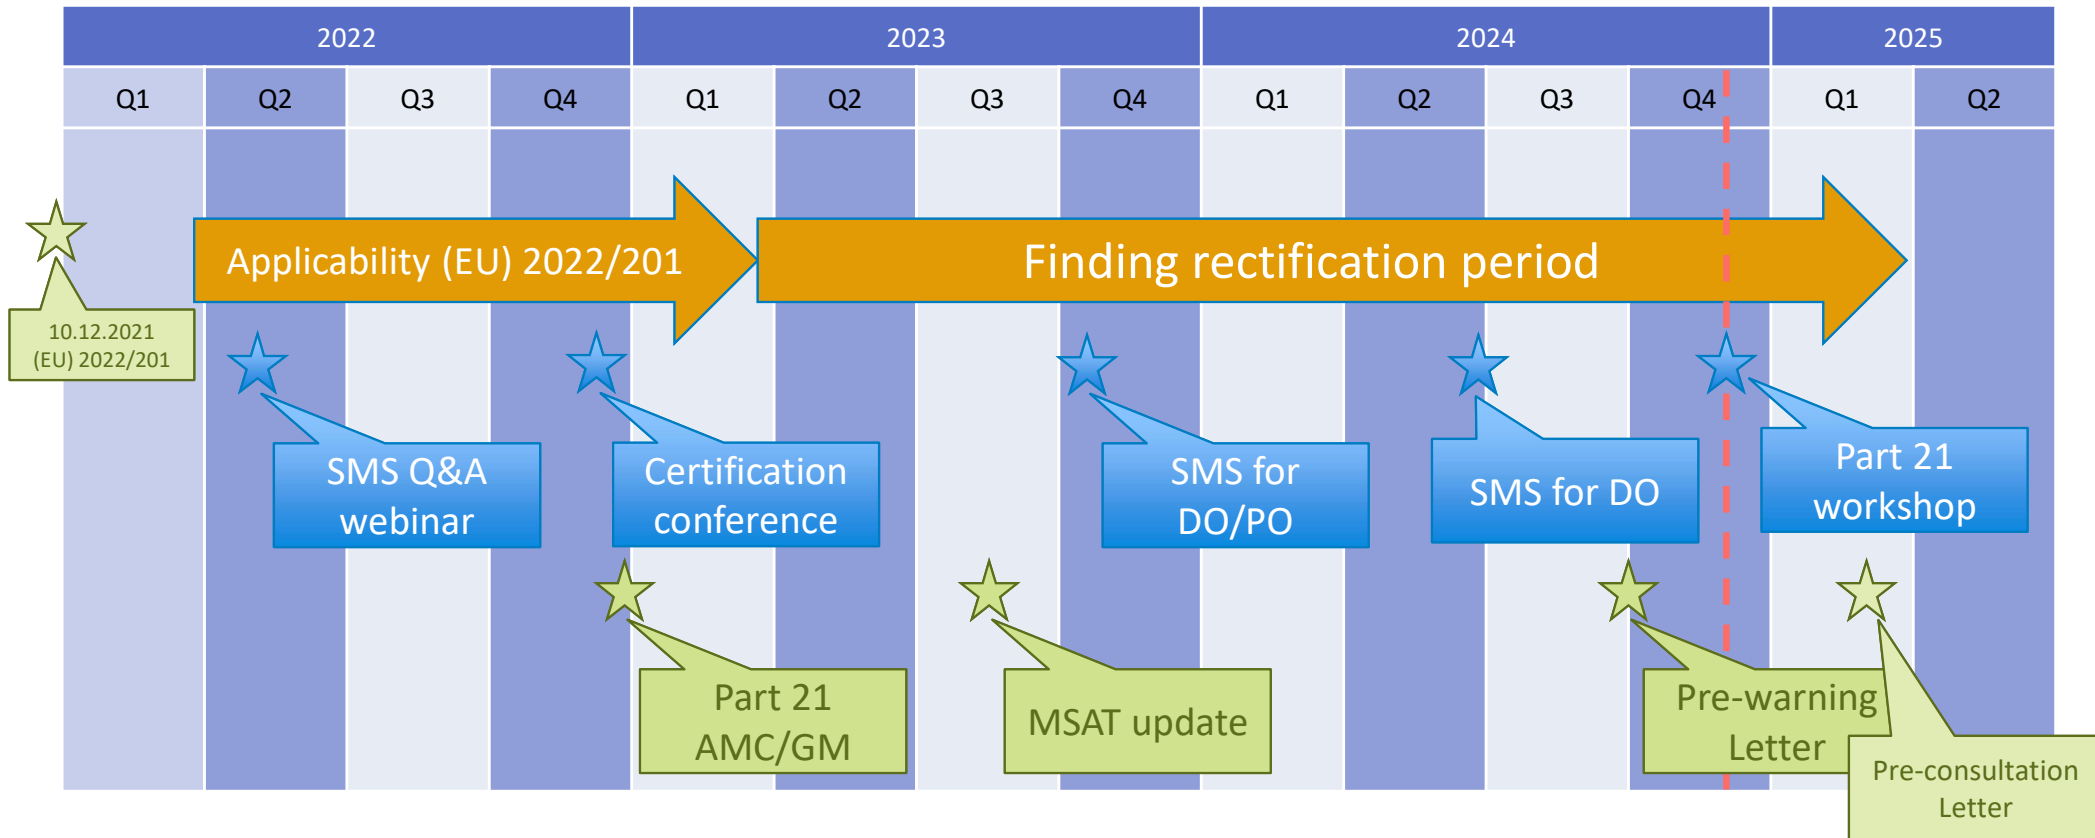

PART 21 WORKSHOP

November 26th 2024

Your safety is our mission.

An Agency of the European Union 

SMS implementation - timeline

SMS implementation – progress

- Close to 50 DOAH reached sufficient maturity of their SMS.
- Organisations with mature SMS are of various size, complexity and scope of work

SMS implementation – proportionality

→ Proportionality

- The SMS implemented by the DOAH should be proportionate to their size, scope and activity.
- Likewise, guidance for assessment of the SMS by EASA is through a proportionate approach

SMS implementation – next steps

- Please maximise your effort to achieve compliance with SMS requirements.
- Communicate with your assigned Organisation Approval Team Leader about progress or questions you may have.
- Be mindful of workload; anticipate time needed for assessment.
- SMS implementation does not end with the initial acceptance.

**Thank you
for your attention.**
