

FAQ n.20079**FAQs:**

[Part-NCC/NCO](#), [Air Operations](#), [Regulations](#)

Question:

Why do European rules require a list of specific approvals?

Answer:

Appendix V of the Authority Requirements ([Part-ARO](#)) contains a list of specific approvals for non-commercial operations and specialised operations. This list replicates in a proportionate manner the OpSpecs template for CAT operations.

The reasons for this list are to standardise the documentation of specific approvals for non-commercial operators and to support ramp inspectors in their oversight activities.
