

EASA

TERMS OF REFERENCE

TOR Nr: CS-ETSO/001

Issue: 1

Date: 08 December 2004

Regulatory reference: CS-ETSO

Reference documents: National equipment specifications (to be selected)

1. Subject: Validation of existing national equipment specifications

2. Problem / Statement of issue and justification; reason for regulatory evolution (regulatory tasks):

Existing national approvals and certificates, based on national equipment specifications, but not incorporated in CS-ETSO, are "grandfathered" by Regulation 1702/2003. However new approvals or certificates cannot be granted.

3. Objective:

Complete the transition from national aviation safety rules into the EASA structure, by formally incorporating national specifications into CS-ETSO where appropriate.

4. Specific tasks and interface issues (Deliverables):

Transposition of national specifications into EASA NPA

5. Working Methods (in addition to the applicable EASA procedures):

Transposition of specifications carried out by Rulemaking Directorate.

6. Time scale, milestones:

NPA to be published March 2005

Abstract: The document contains the Terms of Reference on the task mentioned at the top of the document, part of the rulemaking work programme 2004, and established in accordance the requirements set out in the rulemaking procedure.
