

**FAQs:**

[General](#), [Airworthiness Directives \(ADs\)](#)

**Question:**

**Where can I find a State of Design AD issued before 28 September 2003 (start date of EASA) if it is not in the Safety Publications Tool?**

**Answer:**

All ADs issued by the State of Design (SoD) Authorities before 28 September 2003 should be retrieved from the relevant SoD websites. Please consult the list of [Useful links](#) on the EASA Airworthiness Directives page.

SoD ADs issued before 28 September 2003 are progressively uploaded to the EASA [Safety Publications Tool](#) by the Safety Information Section. Once this upload is finished, an announcement will be made on the EASA Airworthiness Directives webpage.
